

# Superintendent Leadership 101

Designed for anyone in field supervision overseeing teams – titles might include: superintendents, foremen, general foremen, team leaders, general superintendent

## Discover How to Become a More Effective Leader in the Field

Few industries rely on effective leadership for success more than the construction industry. Superintendents control the greatest variable on a jobsite – labor. With the overwhelming number of activities on any given job, it takes resourceful superintendents to pull them all together. This presentation will be a summary level of basic 101 leadership techniques that apply to not only construction, but especially to field supervisors. The construction industry has many opportunities to lead teams. All of us need to be self-reflective on how we are doing and what can we do to get better. This workshop will enhance your individual skills and provide you with a handful of tools which will help you to become a more effective field supervisor.

## Learning Objectives

- Understanding your own strengths and weaknesses
- Recognizing the difference between management and leadership
- Best practices on how to become a better leader and communicator to the field
- How to attract and recruit people to your team
- Recognize how labor efficiency is the key to success for a superintendent
